# 10-4 TMS: API Access Guide

**Prepared for:** Josh Kiefer, 10-4 Global Logistics
**Prepared by:** Stackup Solutions
**Date:** October 9, 2026

To connect 10-4 TMS to your carriers and tools, we need API access from each provider. This guide lists every integration currently set up in Quote Factory, shows its status, and explains how to get the API access for each one.

**For most carriers you will need:**

- your 10-4 account number with that carrier
- a login on that carrier's website

---

# 1. LTL Carriers

## Status in Quote Factory today

| Carrier | Status in Quote Factory |
|---|---|
| A. Duie Pyle | ✅ Enabled |
| AAA Cooper Transportation | ✅ Enabled |
| ArcBest (ABF Freight) | ✅ Enabled |
| Averitt | ✅ Enabled |
| Go2 Logistics | ✅ Enabled |
| Magnum | ✅ Enabled |
| Old Dominion Freight Line | ✅ Enabled |
| Roadrunner Freight | ✅ Enabled |
| Saia | ✅ Enabled |
| Southeastern Freight Lines | ✅ Enabled |

| Carrier | Status in Quote Factory |
|---|---|
| TForce Freight | ✅ Enabled |
| XPO | ✅ Enabled |
| Pitt Ohio | 🟡 Activating (not live yet) |
| Warp | 🟡 Activating (not live yet) |
| FedEx Freight | ⛔ Disabled |
| Double D Express | ⛔ Disabled |
| Sunset Pacific Transportation | ⛔ Disabled (manual quotes only) |

## How to get API access for each carrier

**Group A: you can generate these yourself online.** Log in, request the keys, then send them to us.

| Carrier | How to get it | What we need from you |
|---|---|---|
| **ArcBest (ABF)** | Log in at arcb.com → Menu → Resources → APIs. Your API ID is shown at the top of the page. Questions: api@arcb.com | API ID |
| **Averitt** | Log in at averitt.com → API Dashboard (tools.averitt.com) → request an API key for each service (rate quote, pickup, tracking, BOL, documents). Support: support@averitt.com, 1-877-281-7131 | API key |
| **Saia** | Sign up at saiaprodapi.developer.azure-api.net → subscribe to the Rate Quote, BOL and Tracking products | Subscription keys + Saia account number |
| **TForce Freight** | Sign up at developer.tforcefreight.com → open your Profile → "Configure My Client". The secret is shown only once, so copy it right away. Setup can take up to 5 business days. Support: groundfreightapisupport@tforcefreight.com | Client ID + Client Secret |
| **FedEx Freight** | Create a user at developer.fedex.com → create a project with the "Freight LTL" API → link your FedEx Freight account. Your account must be enabled for API use, and your FedEx rep can help. | API Key + Secret Key + account number |

| Carrier | How to get it | What we need from you |
|---|---|---|
| **AAA Cooper** | Log in at aaacooper.com → Web Services → an API token is generated there. If you have no login, create a web registration and link your account. Support: CustomerCare@aaacooper.com, (888) 715-7690 | API token + account number (BusID) |
| **A. Duie Pyle** | Log in to MyPyle at aduiepyle.com → IT Support → fill out the Rate Quote Web Service request form. Phone: 800-523-5020 | MyPyle username + password + account number |
| **Southeastern (SEFL)** | Uses your MySEFL website login. No separate key is needed. | MySEFL username + password + account number |
| **Roadrunner** | Log in at freight.rrts.com → find your Application ID and API Key in the tools section | Application ID + API Key + account number |

**Group B: email the carrier to request access.**

| Carrier | Who to contact | What to ask for |
|---|---|---|
| **XPO** | LTLWebAPISupport@xpo.com | API access for rating, pickup, BOL and tracking. Include your XPO Web User ID and say you are a broker. |
| **Old Dominion** | API@odfl.com or your ODFL rep. Signup page: odfl.com/WebServiceSignup | API access for rate estimate (REST), pickup, BOL and tracking |
| **Pitt Ohio** | Your Pitt Ohio rep, or myPittOhio → Technology → B2B Integration | API access for rate, pickup, BOL and tracking |
| **Magnum** | Customer_Service@Magnumlog.com | API username + password + account number |
| **Go2 Logistics** | Your Go2 sales rep | API token + account number + API documentation |
| **Double D Express** | Your Double D rep | Do they offer an API, and what is needed to get access? |

| Carrier | Who to contact | What to ask for |
|---|---|---|
| **Sunset Pacific** | Your Sunset Pacific rep | Do they offer an API, and what is needed to get access? |
| **Warp** | Self sign-up at wearewarp.com/freight-api | Note: Warp's API returns Warp's own network rates. Ask whether your negotiated rates can be used through the API. |

---

## 2. Other Integrations

| Service | What it does | Status in Quote Factory | How to get API access |
|---|---|---|---|
| **QuickBooks Online** | Syncs bills and invoices and marks them paid | ✅ Enabled (syncing) | No action needed now. We create the app on Intuit's developer portal. When it's ready, you click **"Connect to QuickBooks"** once to approve it. |
| **Trucker Tools** | Live load tracking. The driver gets a tracking link. | ✅ Enabled | Email integrations@truckertools.com and ask for TMS integration credentials (API key + secret + account IDs). |
| **MyCarrierPackets** | Carrier onboarding and compliance | ⛔ Not connected to Quote Factory (used separately) | Email mcp-help@descartes.com and ask for API / integration access for your account. |
| **DAT / Truckstop auto-post** | Automatic load board posting | ⛔ Not used | Not needed, since you post loads manually. |
| **Carrier411, CarrierOK, Highway, ClassIT+** | Carrier monitoring and freight class lookup | ⛔ Disabled | Not needed for now. |
